

**Wątek moda na forum:** <http://forum.stalker.pl/viewtopic.php?f=49&t=6466>

### **Freeplay Start**

#### **Opis:**

Jest to modyfikacja autorstwa Xianiego, w której usunięty został całkowicie storyline, dodane zostały nowe questy. Na starcie wybieramy swoje imię i... przynależność do jednej z frakcji (nawet chociażby bandytów).

Mod jest zrobiony bardzo porządnie i może stanowić zarówno grę samą w sobie, jak i naprawdę świetny punkt wyjścia do tworzenia swojej własnej wersji.

**Uwaga:** warto zajrzeć do skryptu **scripts/xiani\_config.script**, jest tam sporo dodatkowych opcji, które można włączyć!

za oryginałem:

allow to start game with no storyline.

- player can enter it's name and choose starting community at game start
